MONTREAL

World Triathlon Para Series Montréal returns to Parc Jean-Drapeau for the 2026 edition. The race uses the Olympic Basin for a 750 m swim, then heads to the Circuit Gilles-Villeneuve, the F1 track, a 21.5 km bike closed circuit course. The run mixes the CGV and the path alongside the rowing basin for 2 laps of 2.5km. Late June in Montréal can run hot and humid; with 23 °C water, expect a non-wetsuit race and a power-driven bike.

COURSE FEATURES

- Olympic Basin swim. Sheltered, ~23 °C fresh water, in-water pontoon start. Likely Non-wetsuit.
- Bike on Circuit Gilles-Villeneuve (F1 track): pancake-flat 4.1 km clockwise loop × 5 + connectors = 21.5 km.
- Run on CGV + Olympic Basin path: flat 1.8 km loop × 2 with a decent stretch before and after the main loop to total 5km.

Distance 750 m	Layout Olympic Basin	Start In water pontoon
Water Temp 22.0–24.0 °C	Wetsuit Likely non-wetsuit	Lap Count 1

Tactical Notes

- Sheltered Olympic Basin water. Typically minimal chop/current.
- PTWC swim warm-up on course 06:15–06:45; PTS/PTVI use warm-up lane 07:00–08:15
- Lounge opens 05:30 (PTWC) / 06:15 (PTS/PTVI); athletes' intro 10 min before category start
- Warm water + warm air at 7 AM start. No cold-water acclimation concerns

Elevation / Lap	Total Climb	Avg Grade
Flat (no data)	—	—
Max Climb Grade	Wind	Loops
—	Variable	5 × 4.1 km

Tactical Implications

- Bike held on the Circuit Gilles-Villeneuve (CGV) F1 track. Clockwise 4.1 km loop × 5 + connections = 21.5 km
- Pancake-flat, smooth tarmac throughout. No significant climbs favoring pure power profiles
- Team wheel station at the CGV entrance; Neutral wheel station mid-lap
- Bike penalty box sits at the lap/transition split — athletes pass it 5 times across the race
- Open island setting on Notre-Dame Island. Some potential for winds off the St. Lawrence can swing crosswinds on the straights

Flat course — published profile shows no significant climbs.

Tactical Notes

- Flat 1.8km loop × 2 + opening and closing connecting stretches. Exit transition north of basin, enter CGV at the hairpin, head west to pit lane. Two left turns at the pit lane drop onto the north-side path along the Olympic Basin
- Aid stations / water at 370 m, 1.1 km, 2.3 km, 3.0 km, 4.1 km
- Run penalty box at ~2.6 km (loop turnaround)
- PTVI Free Leading zones: T2 exit→AS1, AS2 on CGV, paddocks turnaround, AS2 on Chemin Nord, Run Penalty Box turn
- Run team wheel station (for racing wheelchairs) co-located with Aid Station 2

Travel & Arrival Load

Denver, CO → Montréal race week

Core travel read

Denver → Montréal is a same-day journey with multiple nonstop options (Air Canada / United / WestJet) or easy one-stop itineraries through ORD, YYZ, or EWR. Only +2 h time-zone shift (MDT → EDT), so jet-lag impact is minimal. LOC operates a scheduled airport shuttle YUL ↔ Alt Hotel Montréal between June 23–28 (60 USD mandatory per-person fee). World Triathlon also provides official Wed/Thu pool + gym training windows ahead of Friday's familiarization.

Host Hotel / Official Accommodation Read

- Official hotel: Alt Hotel Montréal (Germain Group), 120 Peel Street, H3C 0L8.
- Block code "2606OBTRIA" — book via the WTPS reservations link, email reservations.altmontreal@germainhotels.com, or call 514.375.0220.
- Distance to venue (Parc Jean-Drapeau): 6.3 km — 15 min by car or bike; LOC provides free venue transport on familiarization + race day.
- Hotel is downtown (Griffintown adjacent). Easy walk to Old Montréal, restaurants, and metro access.

Food / Grocery Options Near Hotel + Venue

- Best stock-up: Provigo / IGA / Métro grocery stores within walking distance of Alt Hotel (Peel St / Saint-Antoine corridor).
- Quick basics: Tim Hortons / Couche-Tard / Starbucks Jean Contu
- Athlete-friendly restaurants: Marcus, Burgundy Lion, and the Cours Mont-Royal food court score strong reviews and are within 15 min walk
- Venue note: Parc Jean-Drapeau is on Notre-Dame Island. Helpful to bring race-day food/fluid from the hotel; on-island vendor options may be limited.
- Heat consideration: Late June can hit 30 °C+. Electrolytes / ice packs should be utilized

HEALTH & WATER QUALITY RISK FACTORS

- Water Quality: Official Montréal Triathlon page says the Parc Jean-Drapeau Olympic Basin meets World Triathlon water-quality standards.
- Athlete Health Incidents: No public Montréal-specific GI illness cluster found. Bigger practical risk is humid mornings.
- Water Temperature: Olympic Basin freshwater is typically warm for late June (~22–24°C). Expect likely non-wetsuit with no cold-water acclimation concern.
- Heat / Humidity Risk: Historical race windows are usually mild-to-warm but humid. Current Jun 27 forecast is cooler (~21°C high / 11°C low), so heat risk looks moderate-low unless humidity or storms build.

Weather and AQ data: Open-Meteo historical archive (archive-api.open-meteo.com). EU AQI: Good ≤20, Fair ≤40, Moderate ≤60, Poor ≤80, Very Poor >80.
