Nation Podium Record — Mixed Relay World Championships

Gold / silver / bronze finishes by nation, 2020–2025

Year-by-Year Results — Final Standings

Top-4 finish order and winning team time for each edition

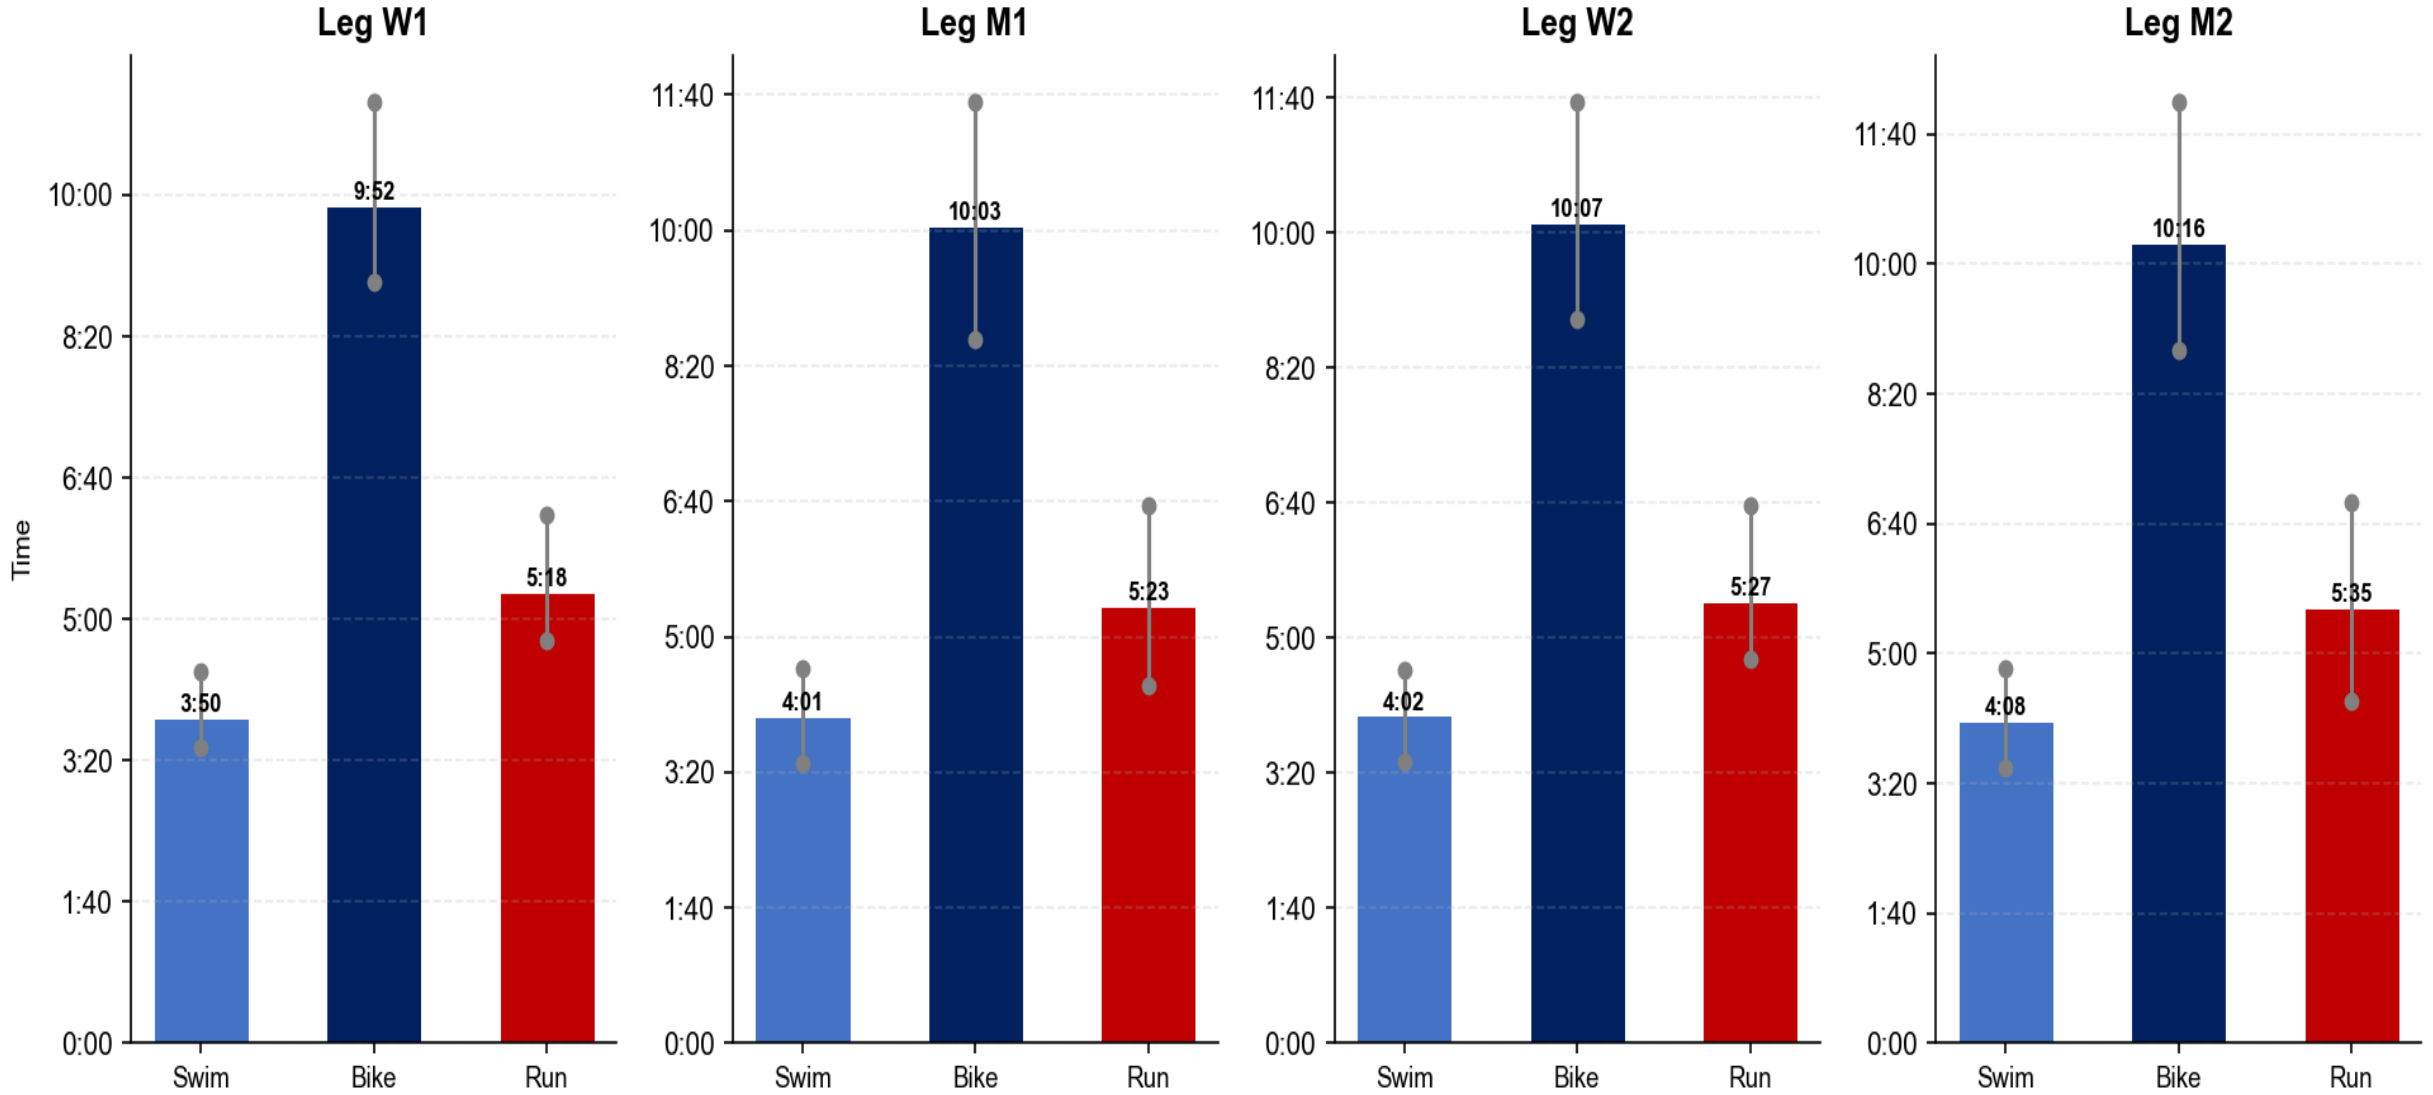

Year	1st	2nd	3rd	4th	Win Time
2020	France	United States	Great Britain	Norway	1:18:26
2021	Germany	Italy	Denmark	New Zealand	1:21:40
2022	Great Britain	Australia	Germany	Switzerland	1:20:52
2023	Germany	New Zealand	Switzerland	United States	1:22:09
2024	Germany	Switzerland	New Zealand	Great Britain	1:19:54
2025	Australia	France	Germany	Great Britain	1:16:53

Leg Split Profiles — Average Time by Segment

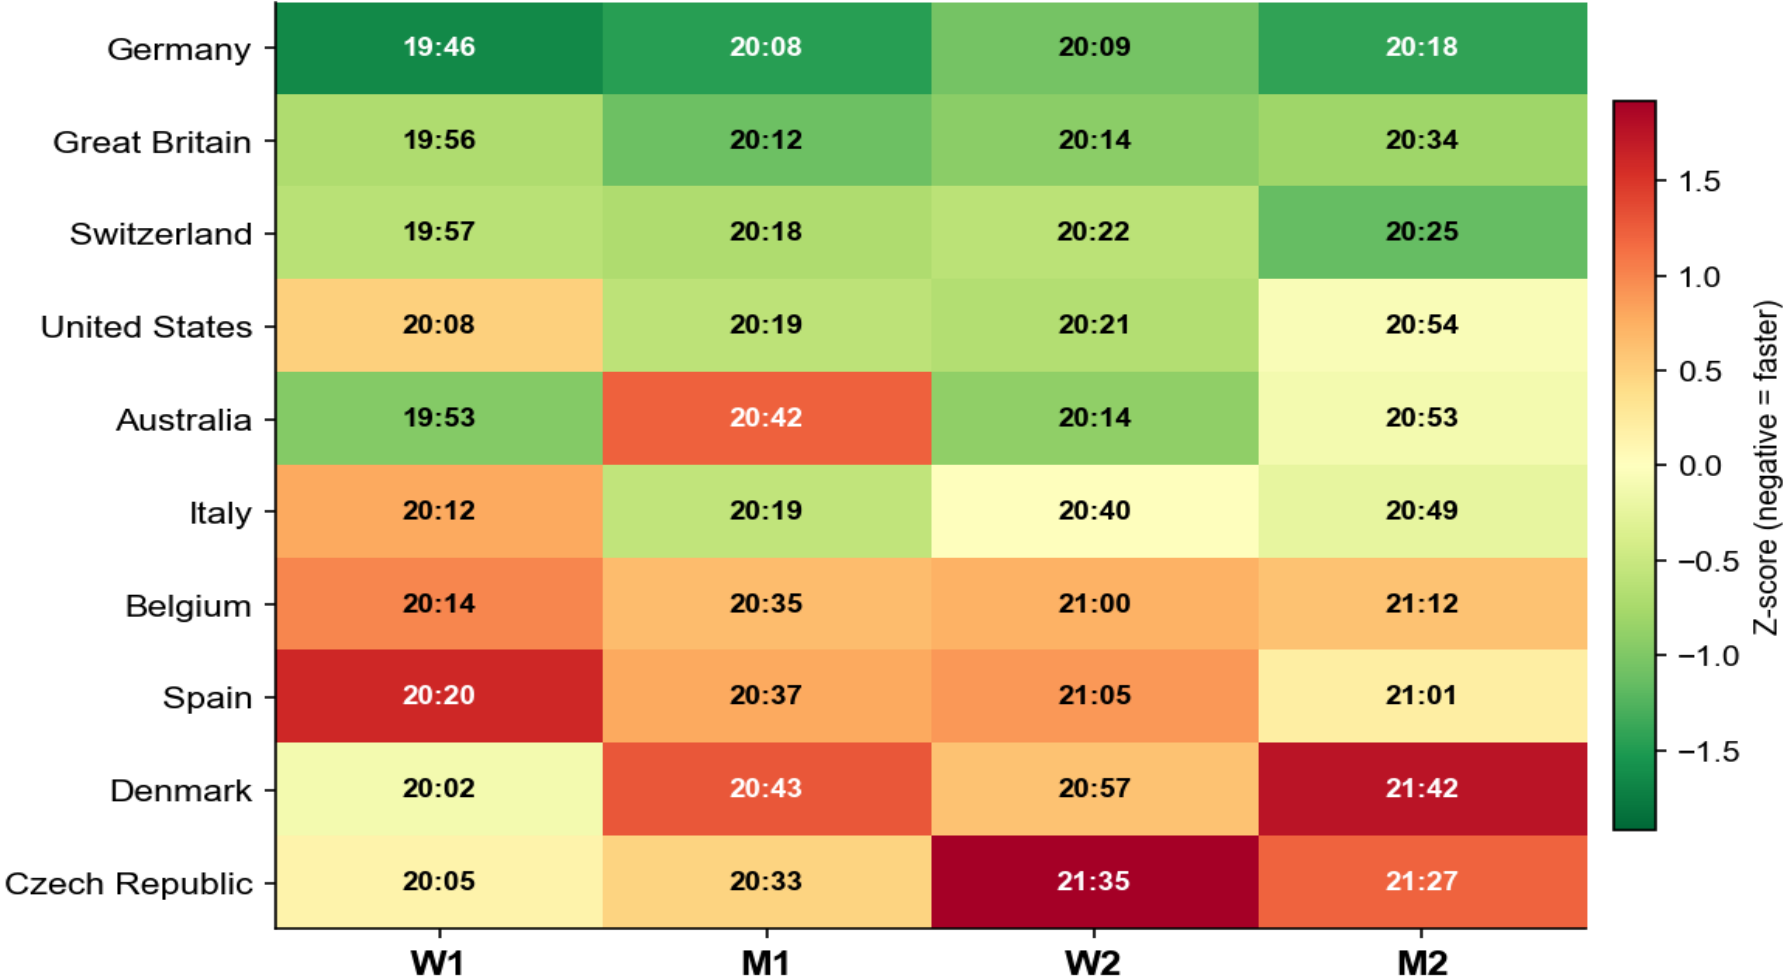

Mean swim / bike / run per relay leg; whiskers show field min–max range

Country Leg Strengths — Relative Performance by Leg

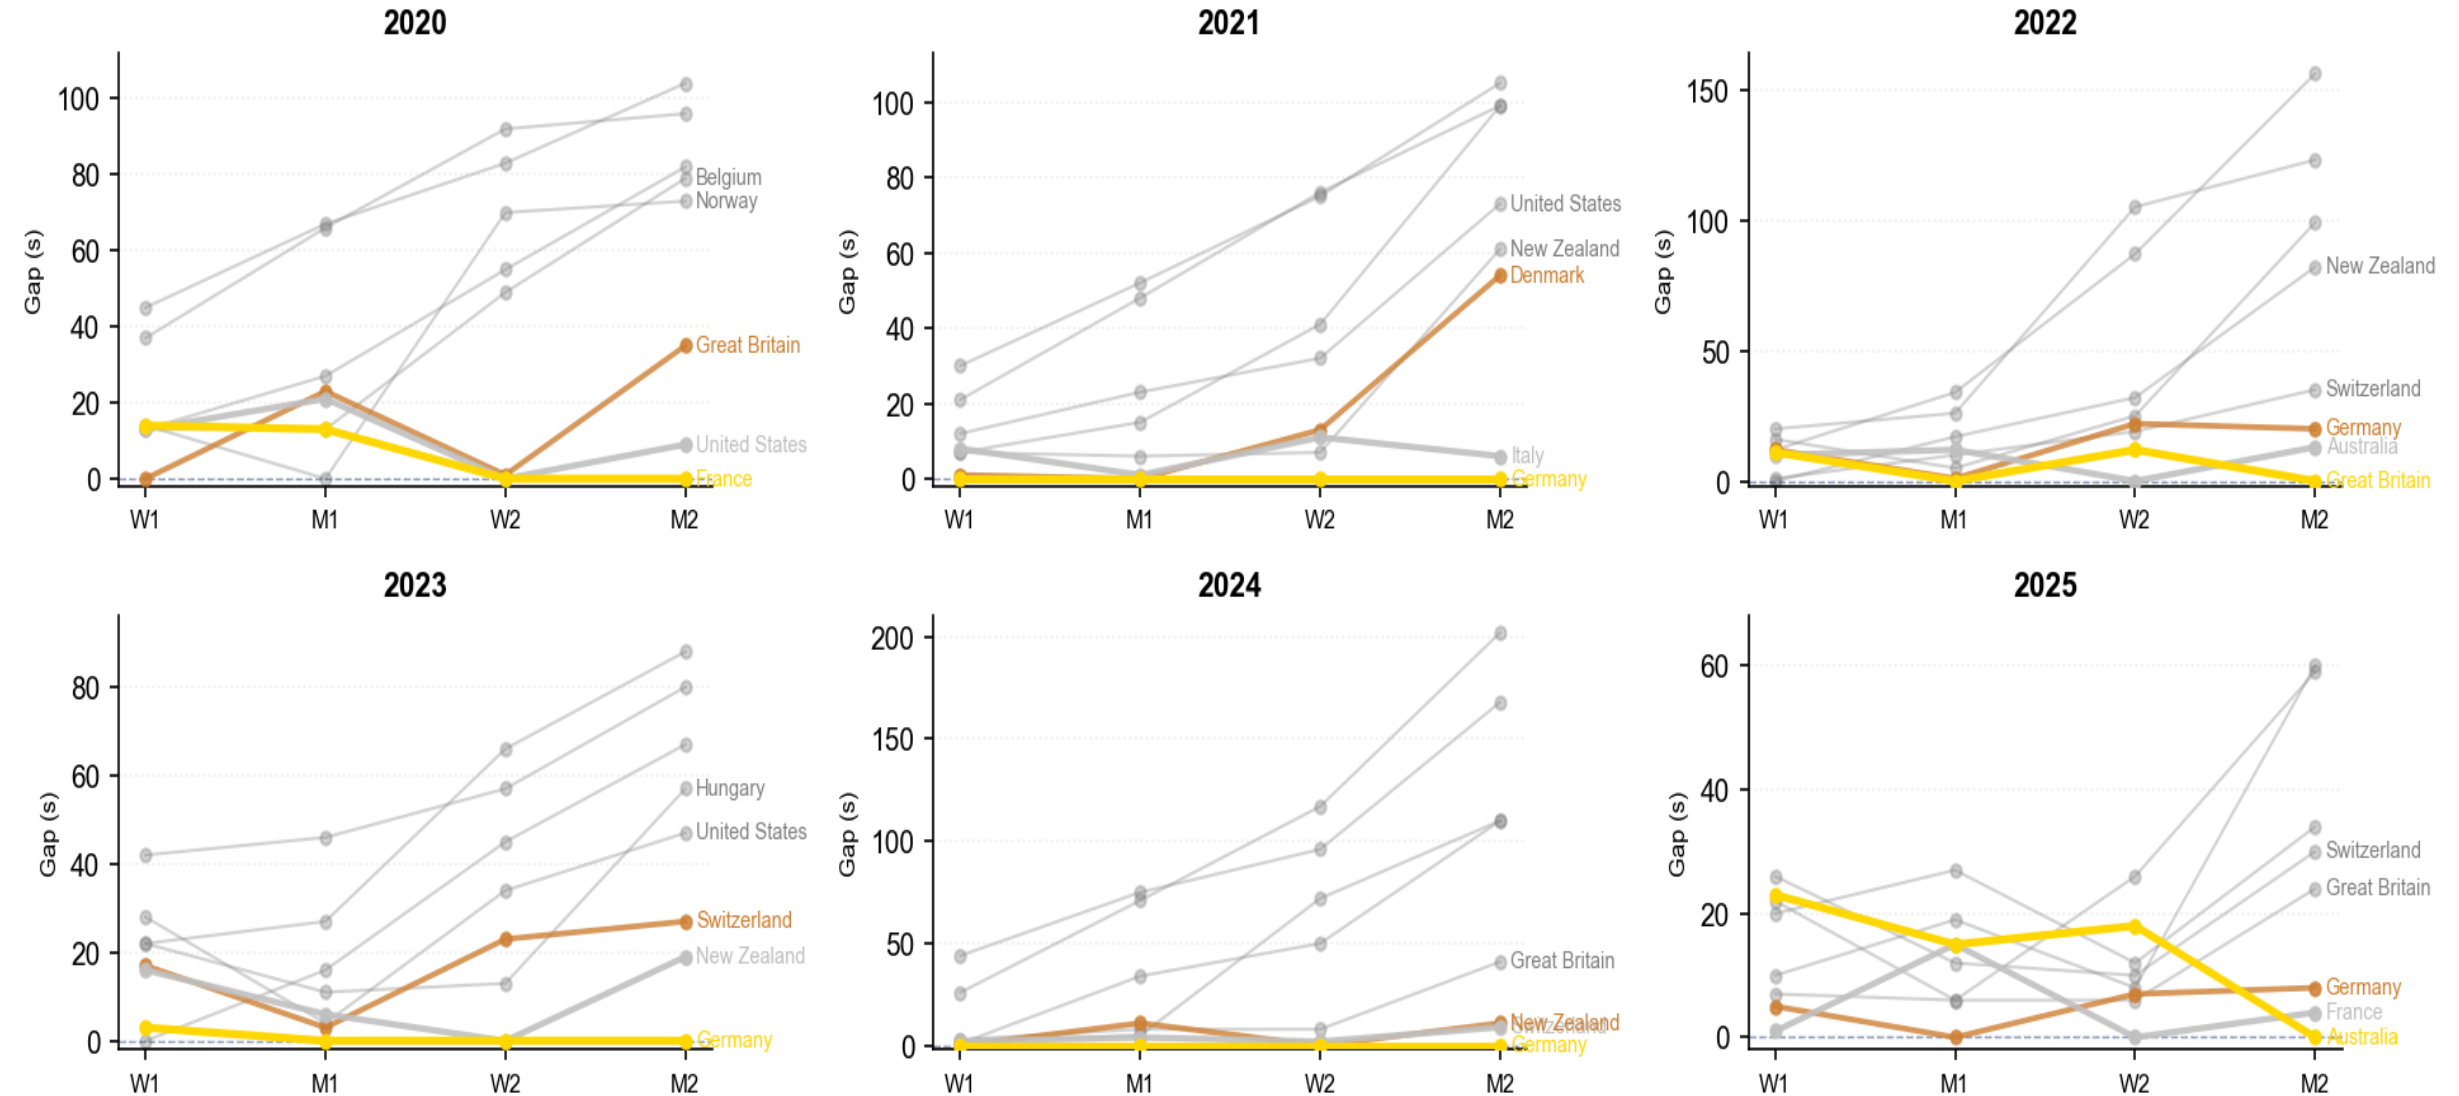

Z-score of mean leg time per slot. Green = faster than field average, red = slower.

Race Dynamics — Gap to Leader at Each Handoff

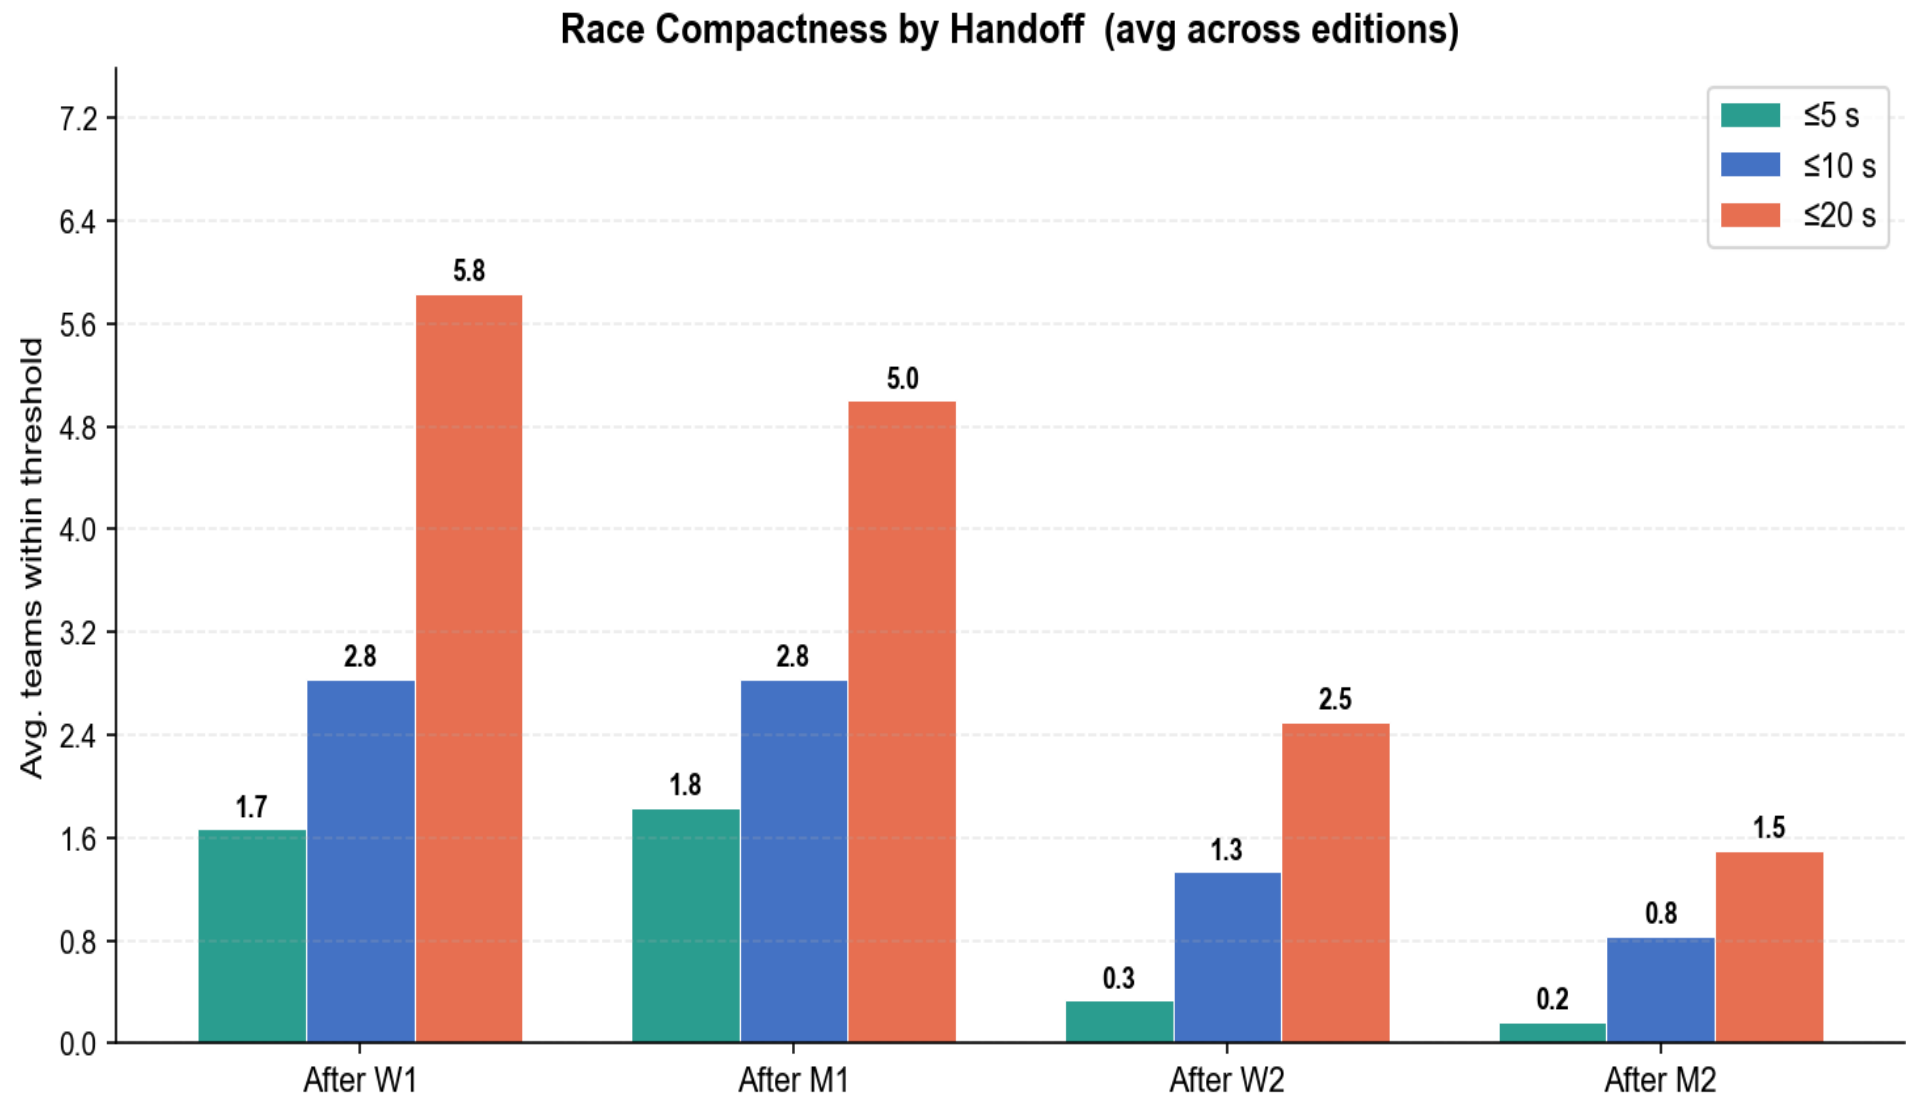

Cumulative gap in seconds at end of each leg. 0 = leading team. Top 8 teams shown per year.

Competitive Density — Teams Within Threshold at Each Handoff

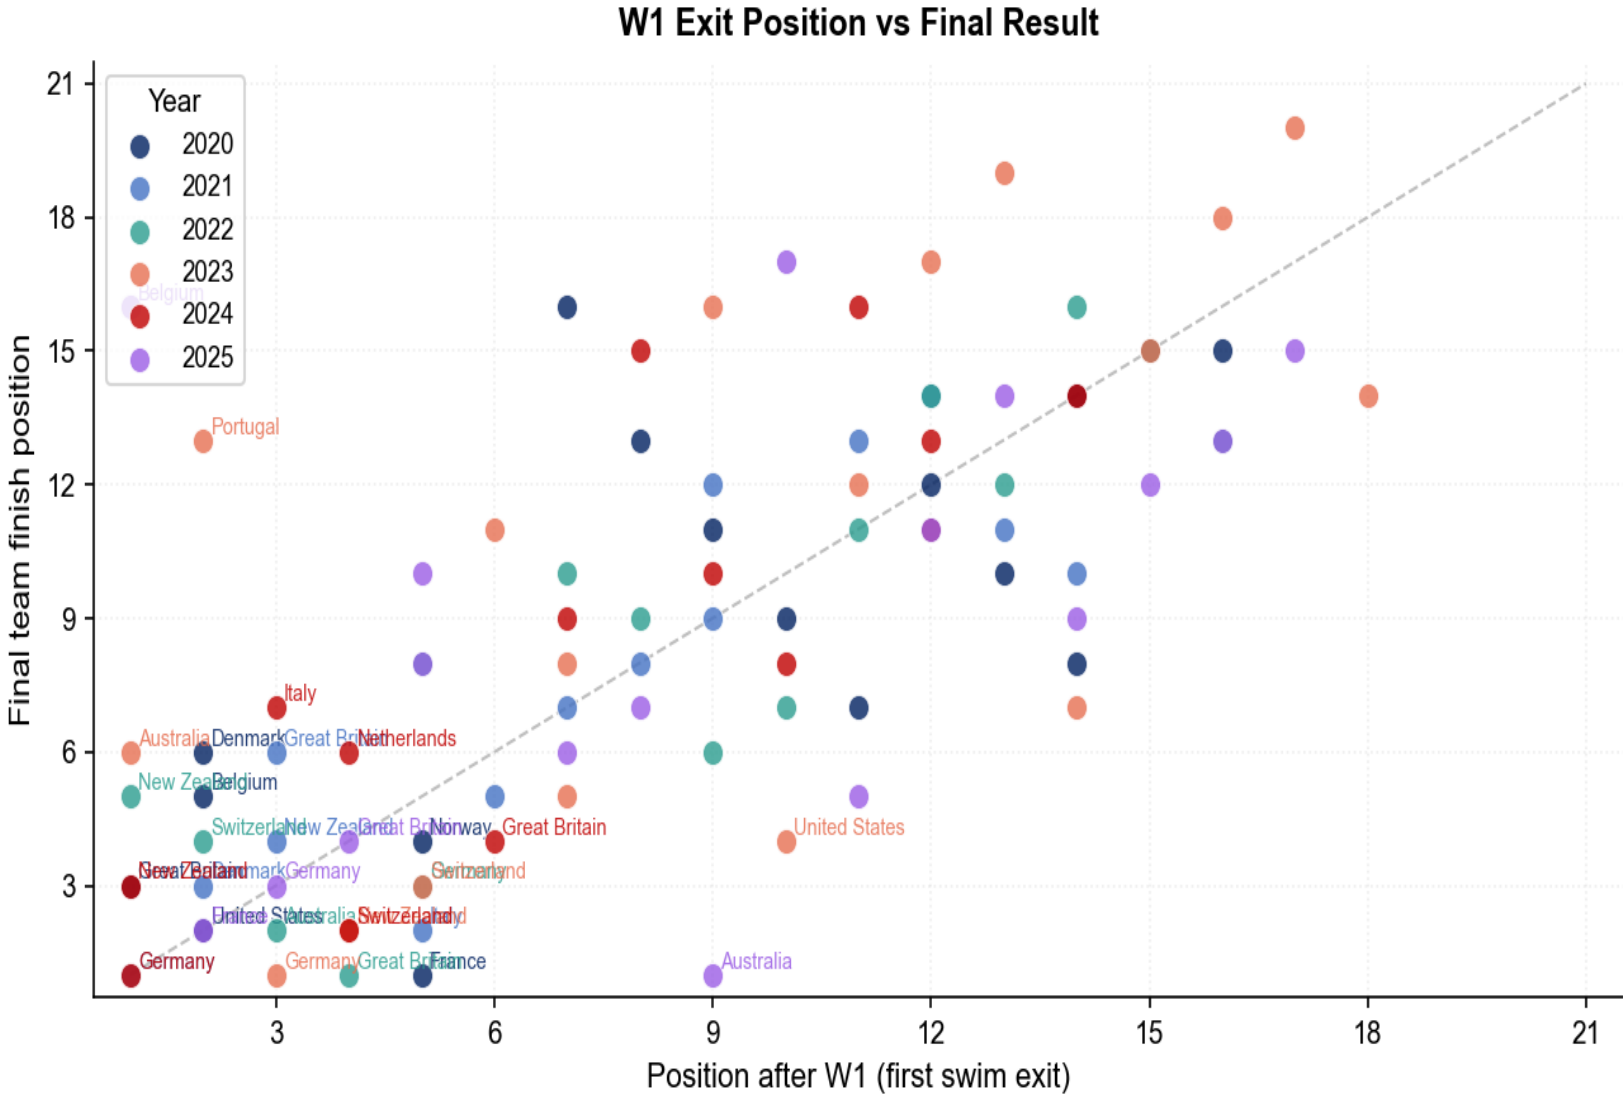

Average number of teams (excl. leader) within 5 / 10 / 20 seconds of the leader, averaged across all editions

Predictive Power of Leg 1

W1 (first swimmer) exit rank vs final team finish. Points on the diagonal = perfect prediction.

Spearman $\rho = 0.71$

W1 leader won: 2/7 races (29%)

n = 96 team-years

$\rho > 0.6$ = swim order dominates result

$\rho < 0.4$ = race decided after the swim

Key Takeaways — Hamburg Mixed Relay
