Elite Analysis · August 27 – 30, 2026

USA Triathlon High Performance

Race Week Schedule

Weihai

August 27 – 30, 2026 • Wave to Wonderland, Huancui District, Weihai, Shandong (CST, UTC+8)

Thu • Aug 27 <i>Arrival & Pool Training</i>		Fri • Aug 28 <i>Familiarization & Briefing</i>		Sat • Aug 29 <i>ELITE MEN — 09:00</i>		Sat • Aug 29 <i>ELITE WOMEN — 12:00</i>	
09:00 – 18:00	Information desk + bike mechanic — Weihaiwei Hotel	09:30 – 10:00	Elite bike course familiarization	07:30 – 08:30	Elite Men athletes' lounge check-in	10:30 – 11:30	Elite Women athletes' lounge check-in
08:00 – 10:00	Pool training — Weihai Swimming Pool (25 m, 4 lanes)	10:00 – 11:00	Elite swim course familiarization	07:45 – 08:45	Elite Men transition zone check-in	11:00 – 11:45	Elite Women transition zone check-in
14:00 – 16:00	Pool training — afternoon session	10:15 – 10:45	Coaches' feedback on FOP to Technical Delegate	08:15 – 08:45	Elite Men swim warm-up	11:15 – 11:45	Elite Women swim warm-up
07:30 / 13:30	Free LOC shuttle hotel → pool (also 08:30 / 14:30)	14:30 – 15:00	Pre-race press conference Brigh Radiance Hotel 12/F	08:30 – 08:45	Opening ceremony — main venue	11:15 – 11:45	Elite coaches run course measurement
		16:00 – 16:30	★ Elite Athletes' Briefing — Brigh Radiance Hotel 14/F	08:45 / 08:50	Elite Men line-up (lounge) / introduction (swim exit)	11:45 / 11:50	Elite Women line-up / introduction
		16:30 – 17:00	Team medical meeting + race package distribution	09:00	★ ELITE MEN START	12:00	★ ELITE WOMEN START
		18:00 – 20:00	Pasta Party — Weihaiwei Hotel 2/F	10:55	Elite Men awards ceremony	14:10	Elite Women awards ceremony

Key Course Differentiators

Weihai

WEIHAI

WTCS Weihai returns to the Wave to Wonderland venue on China's Shandong peninsula for the 2026 Championship Series. Weihai is one of the most established venues on the calendar, hosting elite racing since 2011 and stepping up from World Cup to WTCS in 2024. The format is an Olympic distance with a slightly short bike. **Two things separate** this edition from recent history. First, the date moves to 29 August, roughly **four weeks earlier** than the 2024 and 2025 editions, which means this could be much warmer than the past two editions. Second, the men start at 09:00 and the women at 12:00, into peak midday sun. WT's recorded race-day temperature has come in about **4 °C higher for the women** in every measured edition.

COURSE FEATURES

- OLYMPIC distance with a slightly short bike leg. Almost entirely flat bike and run course
- Non-wetsuit is almost certain. Water has measured 24-26 °C and been ruled wetsuit-forbidden in all four editions. Waterfront start.
- Men's and women's have played out differently here. On the men's side breakaways have stuck, while women's racing have come together.
- Heat is asymmetric: men 09:00, women 12:00 into peak sun with weather projections nearly 4°C warmer than the Men's.

COURSE AT A GLANCE

Swim:	1.5 km – 2 laps × 750 m
Bike:	38.5 km – 8 laps × 4.81 km
Run:	10 km – 4 laps × 2.5 km
Format:	Standard Distance (WTCS)
Bike Laps:	8
Run Laps:	4

QUICK LINKS

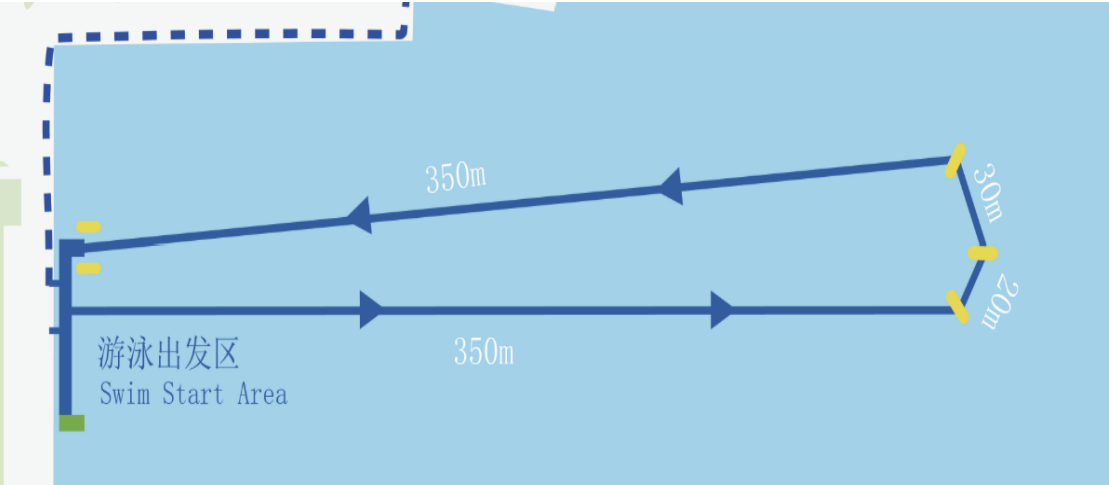

Current Race Info:

[Race Info | 2026 WTCS Weihai](#)

Swim Course Profile

Weihai

Source: 2026 WTCS Weihai Athletes' Guide (updated 22 July 2026)

1.5 km • 2 × 750 m

Open sea bay; salt water, seafront start

Distance 1.5 km	Layout Yellow Sea	Start Waterfront
Water Temp 27.6 °C (7-yr avg)	Wetsuit Forbidden (> 22 °C)	Lap Count 2

Tactical Notes

- Standard-distance swim: 2 × 750 m counter-clockwise laps in the Yellow Sea
- Salt water and open bay. Potential for moderate swell and chop
- Water has run 24–26 °C in every measured edition, so this is a warm, non-wetsuit swim
- Swim familiarization is Friday 28 Aug 10:00–11:00 only; swimming the race course at any other time is prohibited

Bike Course Profile

Weihai

38.5 km • 8 × 4.81 km loops

Closed city roads; Haibin North Rd, Yuhua Rd turnaround, Dongshan Rd

Elevation / Lap
210 ft. / lap

Total Climb
1680 ft.

Avg Grade
5.8% on the climb

Max Climb Grade
~8%

Wind
**Coastal average ~18
km/h, prevailing SE**

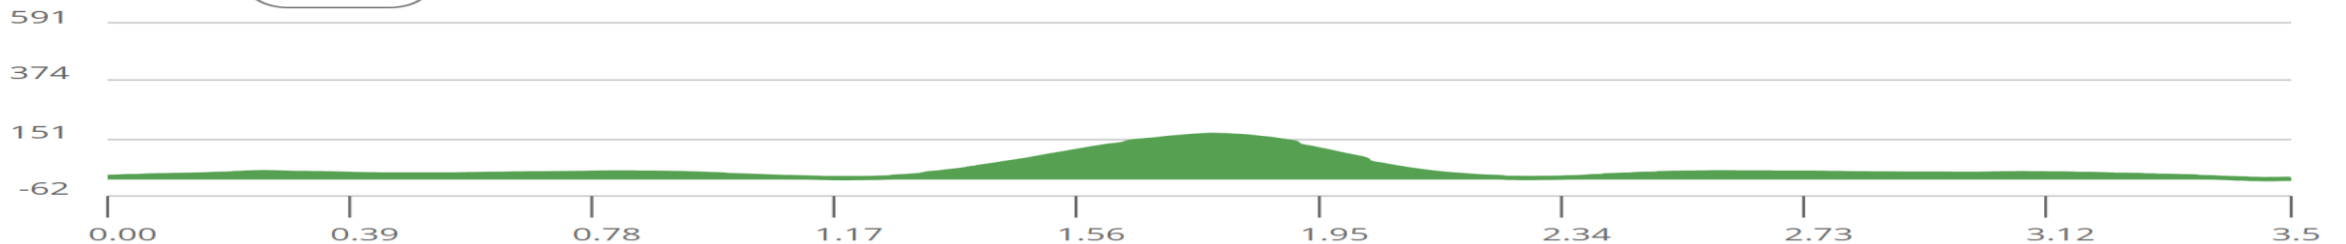

Loops
8 × 4.81 km

Tactical Implications

- 8 × 4.8 km laps = 38.5 km; Route: transition at the Wave to Wonderland running track, north on Haibin North Rd to the Yuhua Rd turnaround, left onto Dongshan Rd, back down Haibin North Rd
- Lap-heavy, turnaround-heavy design punishes riders who sit at the back of the pack
- Coastal seafront exposure on Haibin North Rd — the guide's prevailing SE wind will be a cross/head component on one leg of every lap

Elevation

Climbs

Run Course Profile

Weihai

10.0 km • 4 × 2.5 km

Closed seafront road (Haibin North Rd) out-and-back

Distance

10.0 km

Lap Structure

4 × 2.5 km

Total Climb

~64 ft

Avg Grade

0%

Max ▲ / ▼

~1-2%

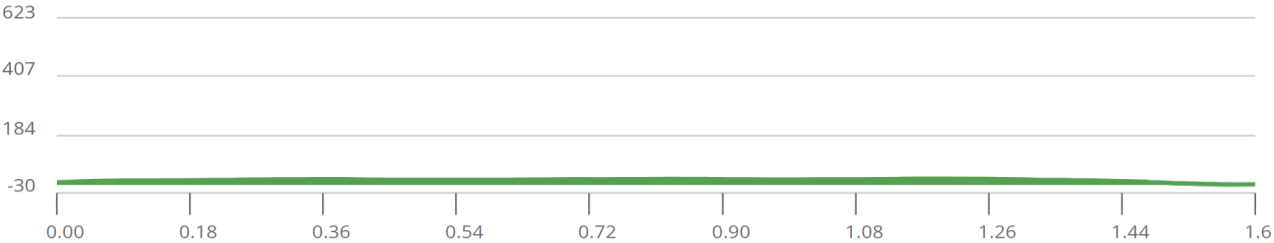

Heat Risk

MODERATE / HIGHER for women

Tactical Notes

- 4 × 2.5 km laps = 10 km: north up Haibin North Rd to a turnaround, u-turn, return to transition, then into the finish chute at the main venue
- HEAT IS NOT SYMMETRIC: WT's recorded race-day air temp has been 3.9–4.7 °C higher for the women in each of the last three editions (2023, 2024, 2025)
- 2026 moves to 29 August, ~4 weeks earlier than the 2024/2025 editions. The closest race time from is 2023 (26 Aug), the hottest on record here: 27.2 °C men / 31.9 °C women

Elevation

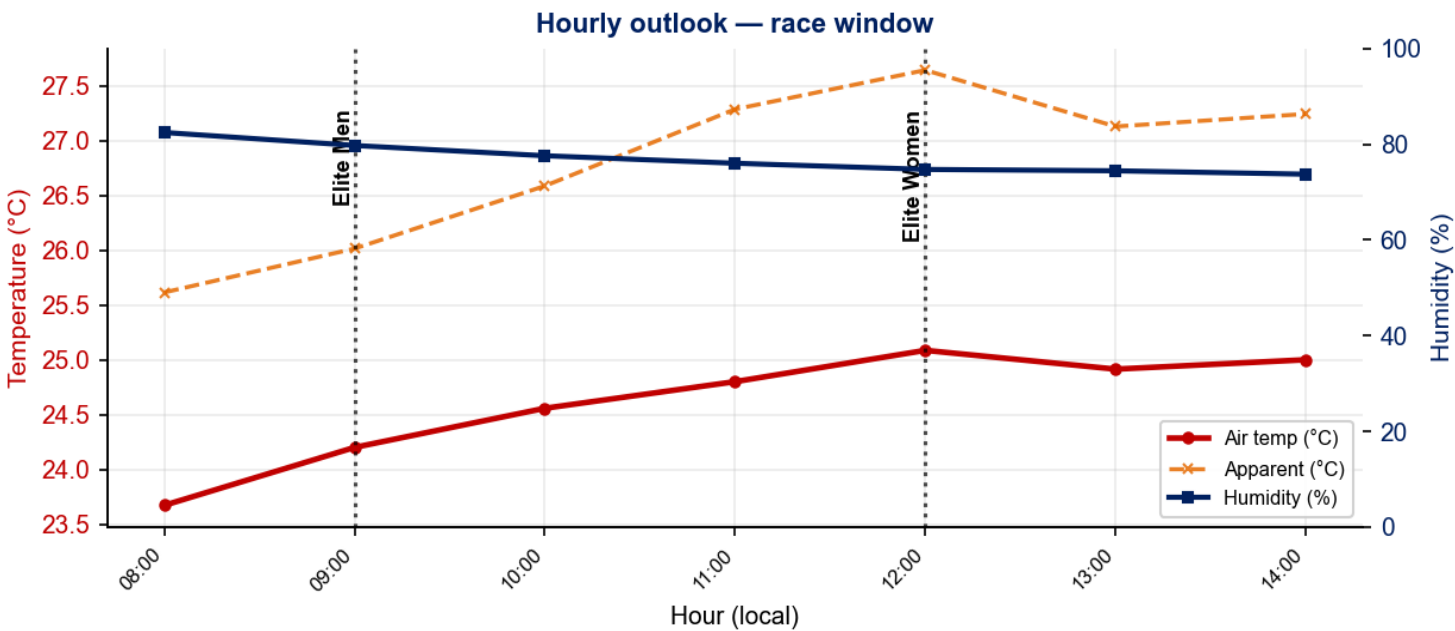

Race-Day Weather Outlook

Weihai

2026-08-29 • Historical climatology — same calendar day, 7-year mean

Elite Men — 09:00		
Temperature	Apparent / Heat	Humidity
24.5 °C	26.6 °C	78%
Wind	UV peak	Heat Stress
14.9 km/h	—	MODERATE

Elite Women — 12:00		
Temperature	Apparent / Heat	Humidity
25.0 °C	27.3 °C	74%
Wind	UV peak	Heat Stress
14.4 km/h	—	MODERATE

Hydration & Cooling Cues

- Standard heat protocol. Pre-cool 10 min with ice or ice vests, make use of sponges/ice at aid stations
- Notable wind (15 km/h) potential from the sea breeze. Drafting can be a key component on exposed coastal bike sections;

Data source: Open-Meteo. Forecast will replace climatology once race day is within 16 days. Historical Race Conditions slide shows what actually happened in prior years.

Travel & Arrival Load

Denver, CO → Weihai race week

Core travel read

The longest trip on the 2026 calendar. Denver → Weihai (WEH) needs two or three legs, typically DEN to a US west-coast gateway, then a trans-Pacific into Beijing/Shanghai/Seoul, then a final Chinese domestic flight or the high-speed rail into Weihai. Budget 24–30 h door to door. CST is UTC+8, 14 hours ahead of Denver (MDT),

Primary route

DEN → WEH

2–3 legs via PEK/PVG/ICN

Time zones

+14h

CST UTC+8 vs Denver MDT

Airport Transfer

WEH → Hotel

46.2 km / ~50 min

Rail alternative

Weihai North HSR

8.4 km / ~18 min to hotel

Hotel → Venue

0.8 km

Walking distance

Host Hotel / Accommodation

- Official hotel: Weihaiwei Hotel, No. 82 Haigang Road, Huancui District. ~0.8 km from the main venue,
- Briefing and press conference are at the Brigh Radiance Hotel, ~500 m from the official hotel (briefing Fri 28 Aug 16:00–16:30).
- Amenities: free Wi-Fi, fitness centre, free laundry on the 2nd floor, two bottles of water and fruit per room daily, free room-service delivery.
- Athlete/coach set meals 198–498 CNY per person in Liugong Island Hall (2/F). Pasta Party Fri 28 Aug 18:00–20:00, vegetarian and halal available.

China-Specific Practical Notes

- POWER BANKS: mainland domestic flights require the 3C/CCC logo. Non-certified banks are routinely confiscated, including at transit security on a domestic connection.
- Payment is QR-dominant (WeChat Pay / Alipay); link an international card before travelling and carry ¥500–1,000 cash for edge cases. Also Google Store is typically shadowbanned, so Android uses must download apps beforehand.
- Electricity 220 V / 50 Hz. Plug types A (US flat), I (AU) and some C (EU) — most hotels have universal sockets, but bring an adapter.
- Pool training available 27–28 Aug at Weihai Swimming Pool (25 m, 4 lanes reserved, free) with a free LOC shuttle from the hotel at 07:30/08:30/13:30/14:30.

On = events scoring ≥ pace. Off = events < pace. Pace = total breakdown pts ÷ events raced. Proj @12 = current total + (avg pts × remaining events to cap); green if ≥ Paris cutoff. Cutoff estimate: Paris 2024 = 3,627 pts / 12 events = 302 pts/event. Tier positions use a geometric 0.925 points model. Source: World Triathlon rankings database.

ELITE MEN

Race Overview — Elite Men

Weihai

RACE HISTORY AT WEIHAI

The Elite Men race at Weihai has been held 5 times in this analysis window (2018–2025). The event is staged as part of the World Cup / World Championship Series calendar.

Race dynamics here can depend largely on race day temperature with the past two years falling on cooler days that led to faster racing across each discipline. With the race falling earlier in the year, except for a greater likelihood of a larger group coming off the bike together. Managing heat pre and during the race will also be critical.

3 KEYS TO SUCCESS

1

Warm temperature here has historically kept the field relatively close together. The delta from the average to the fastest swim split has only been ~30 seconds in the past three editions of the race.

2

Bike dynamics here can depend strongly on the weather. In 2023 when the race was held in August in warmer temperatures the chase pack came together. In 2024 and 2025 when the race was in September with cooler temperatures, the front was able to push the pace and breakaway from the group.

3

Winning run times here tend to be on the fast end with the past two years the winning time right at the 30-minute barrier. However, again in 2023 with the warmer temperature, both the fastest and average run times were substantially slower.

2025	Sep 26	24.9	78%	8	0.0	24.2	forbidden	—

Air temp, humidity, wind, and precipitation sourced from Open-Meteo historical archive (race window 09:00–14:00 local) where WT API data is absent. Values marked * are Open-Meteo estimates. Water temp and wetsuit ruling are from the World Triathlon API per program.

ELITE WOMEN

Race Overview — Elite Women

Weihai

RACE HISTORY AT WEIHAI

The Elite Women race at Weihai has been held 5 times in this analysis window (2018–2025). The event is staged as part of the World Cup / World Championship Series calendar.

With a smaller field in the last two editions held at the WTCS level, the racing has tended to come together into T2 with the field then getting very spread out across the 10K. With warm temperatures anticipated here, its likely that a large group will race together on the bike, making it important to not overdo the opening 1-2K on the run.

3 KEYS TO SUCCESS

1

The swim here has been important in separating the field into roughly two groups; however, a small breakaway has not been able to definitely breakaway in the last two WTCS editions here.

2

In the past two editions of the race, the bike has largely come together with the main group of ~20 athletes all together into T2 with only a field size of 28 athletes. The flat course here enables motivated chasers the opportunity to close small to mid deficits out of the water.

3

Field gets very separated on the run here, making it very important to stay true to one's own red line pacing. With the top 10 separated by ~3 minutes, letting the field go out hard and come back in the back half of the race should be top of mind for younger athletes with less 10K experience.

Swim Exit Dynamics — Elite Women

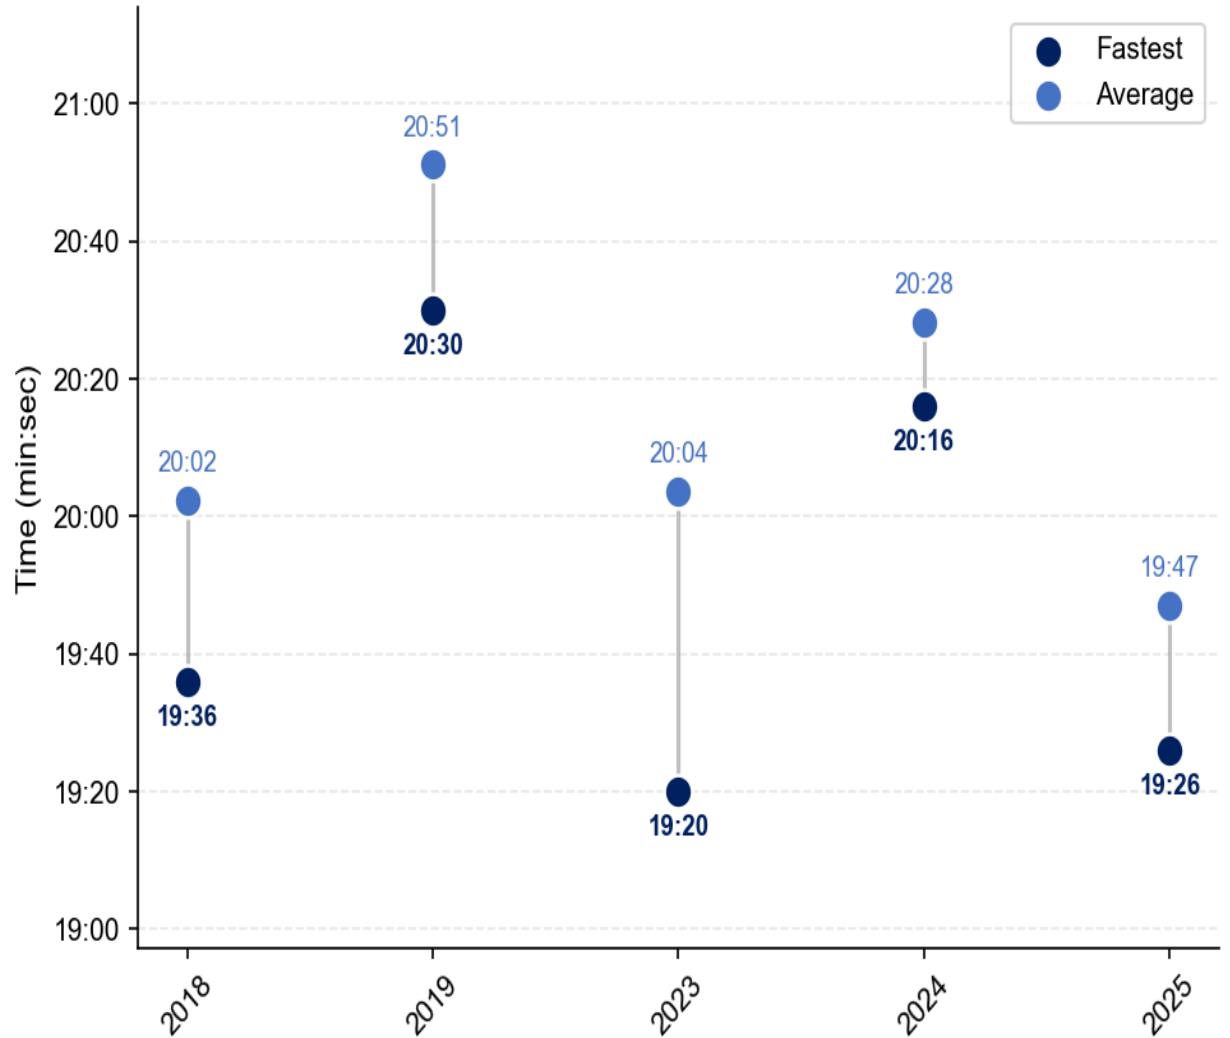

Weihai

Athletes Within 15 sec of Swim Leader

Fastest vs. Average Swim Time

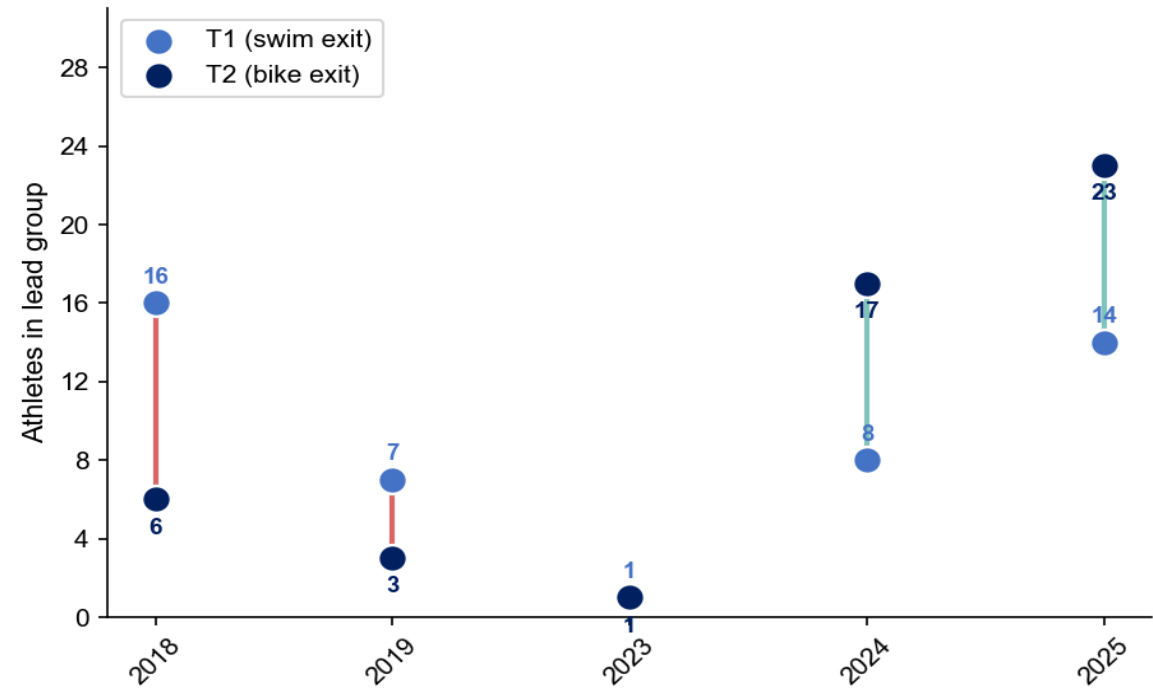

Bike Pack Evolution — Elite Women

Weihai

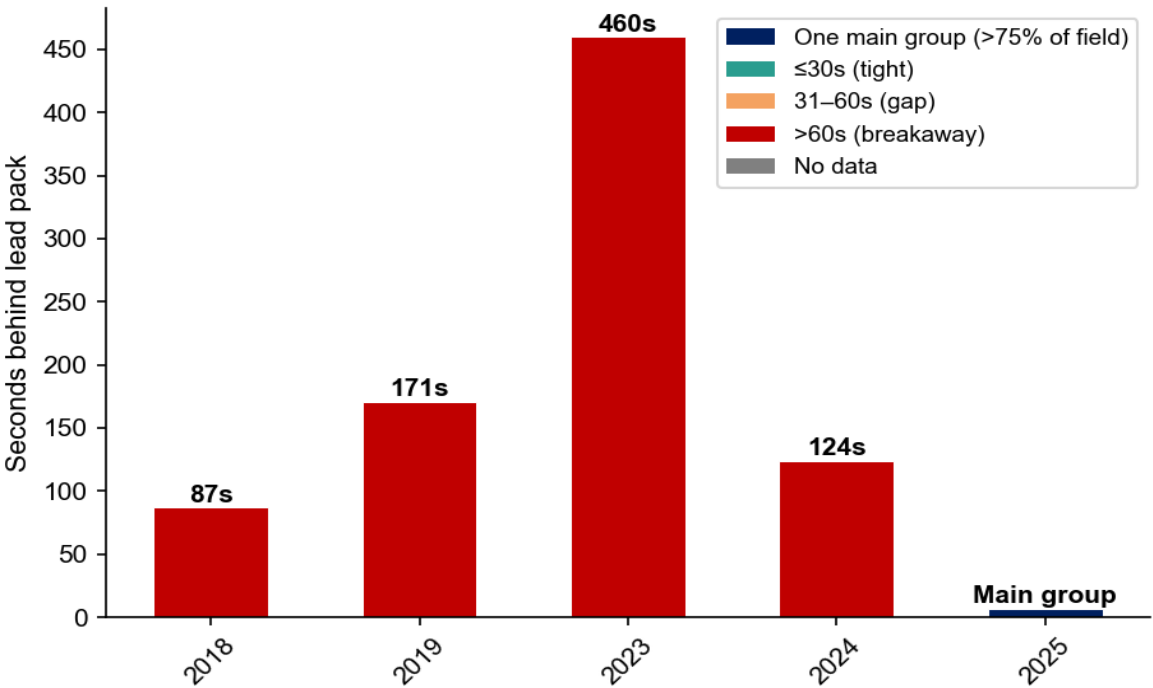

Lead pack = athletes within 15 sec of leader. T1 = lead group entering the bike; T2 = lead group exiting the bike.

Lead Pack Size: Entering T1 vs Exiting T2

Gap: Lead Pack → Chase Group at T2

Year	Lead Size @ T1	Lead Size @ T2	Change	Chase Group @ T2	Chase Gap*
2018	16	6	-10	1	87s
2019	7	3	-4	8	171s
2023	1	1	0	14	460s
2024	8	17	+9	1	124s
2025	14	23	+9	4	204s

Lead pack = athletes within 15 sec of leader. Chase group = athletes within 15 sec of the first athlete outside the lead pack. * Chase Gap = seconds from the last lead-pack athlete to the first chase-group athlete at T2.

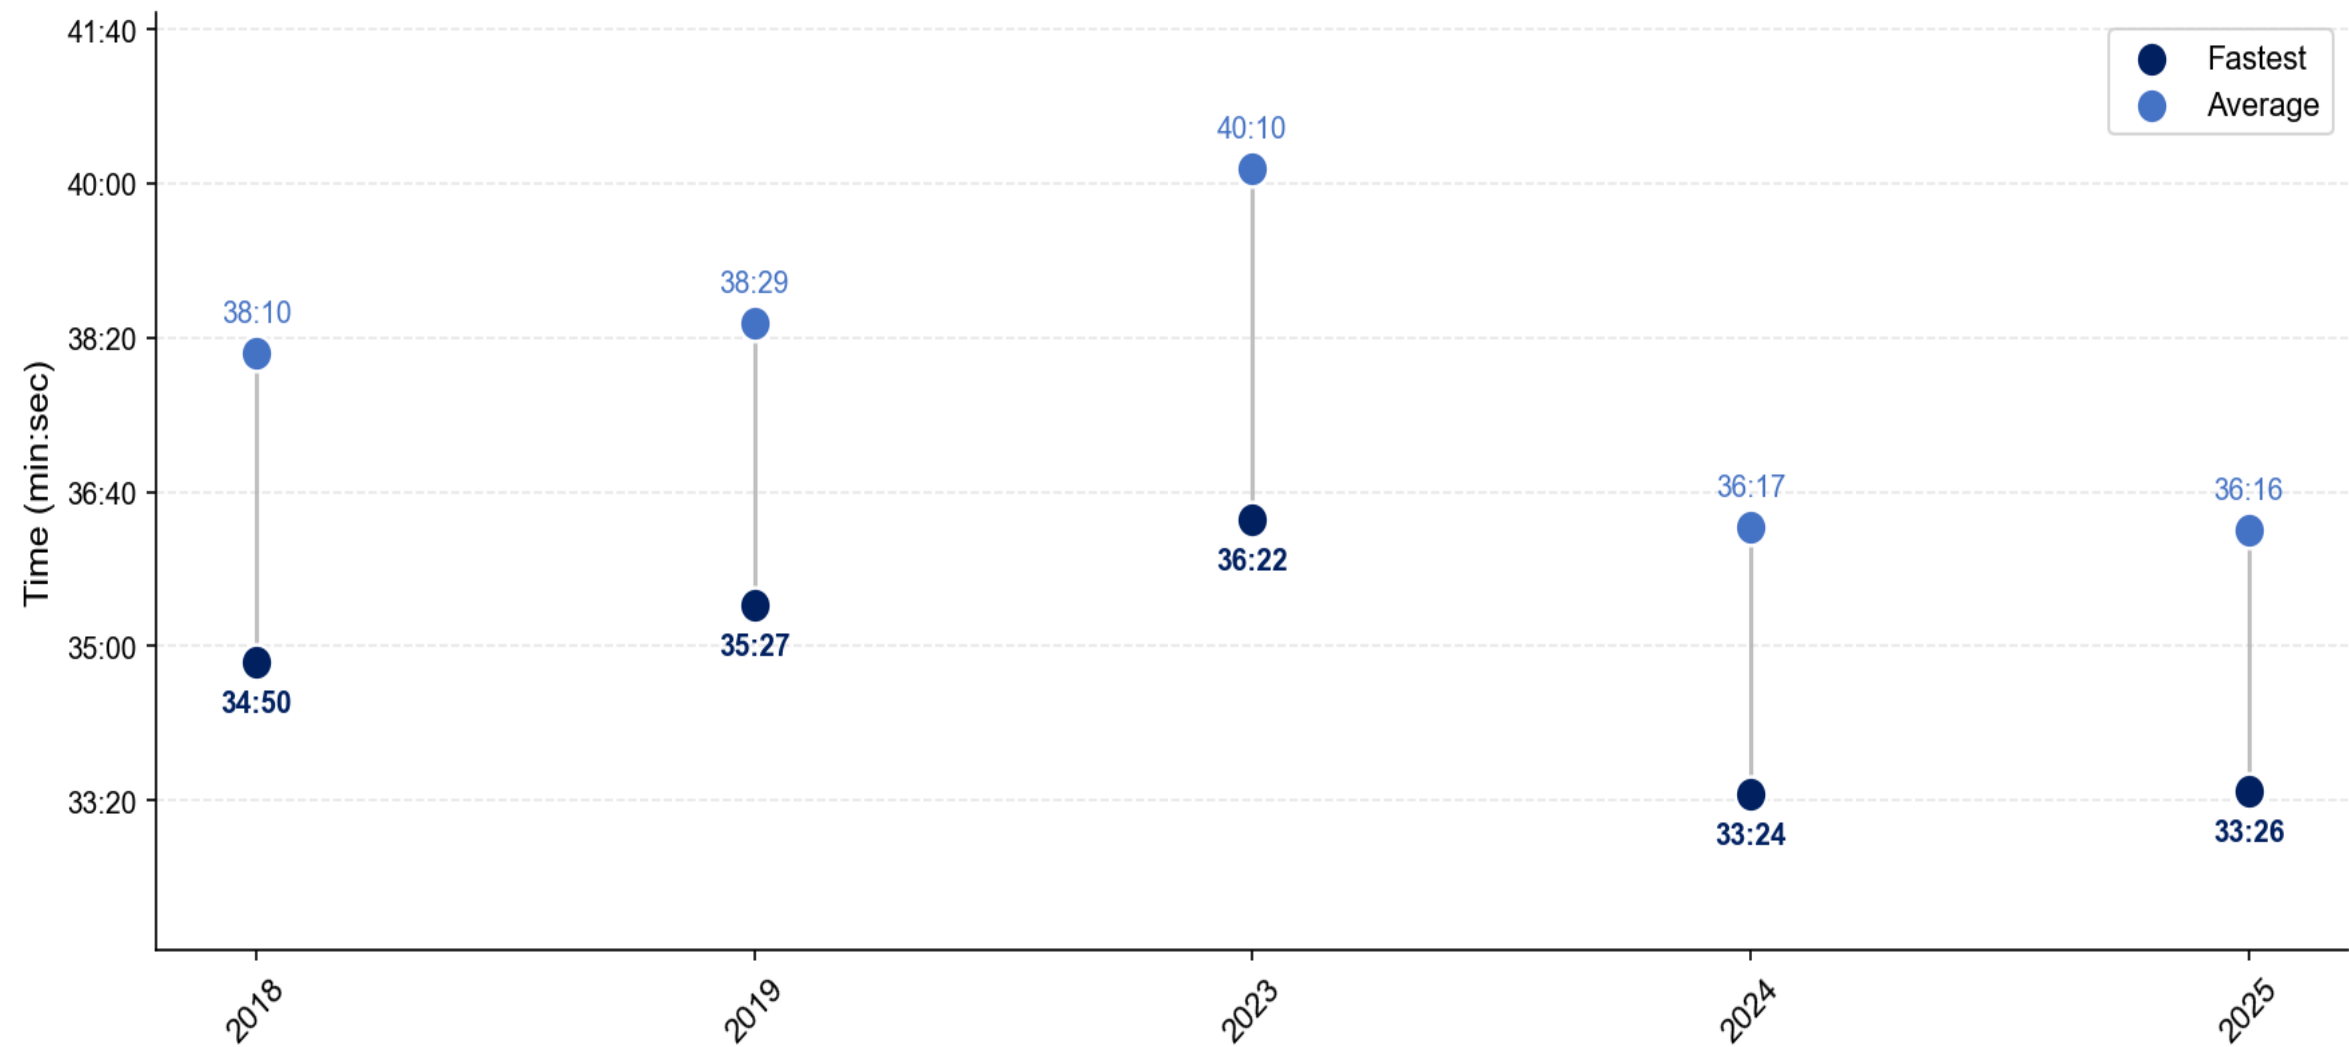

Dropouts: 2018: 9 DNF/LAP | 2019: 4 DNF/LAP | 2023: 7 DNF/LAP | 2024: 1 DNF/LAP | 2025: 1 DNF/LAP (1 in lead group at bike)
