Key Course Differentiators

London

LONDON

WTCS London moves to the ExCeL in the Royal Docksm, a sprint-distance, stadium-style race with an afternoon start (Women 14:30, Men 16:15). The swim is a single 750 m loop in the enclosed Royal Victoria Dock, followed by a dead-flat, fast 20.64 km bike (7 short out-and-back laps on Royal Albert Way) and a 4.92 km run that weaves through the ExCeL venue hall on each of 3 laps. Cool UK-summer conditions and a flat, fast layout mean this race should be ripping from the start.

COURSE FEATURES

- 750 m single-loop swim in the enclosed Royal Victoria Dock. Pontoon start. Water temperature ranges from 18-21 C, thus athletes/coaches need to get accurate sample in the lead up to race for wetsuit ruling.
- Flat & fast crit style bike course: 7 × 2.64 km out-and-back laps (20.64 km).
- 4.92 km run, 3 laps partly indoors through the ExCeL hall. Short distance, flat terrain, and potential for cool conditions should enable fast runners to leverage their run speed.
- Afternoon start (W 14:30 / M 16:15).

Enclosed freshwater dock — no current, urban dock water

Distance 750 m	Layout Royal Victoria Dock	Start Pontoon start
Water Temp 18.0–21.0 °C (expected)	Wetsuit Borderline	Lap Count 1

Tactical Notes

- Single 750 m clockwise loop in the Royal Victoria Dock, off the ExCeL dockside. Enclosed dock should result in flat water conditions.
- Pontoon start with a 315 m leg to the first buoy. Hard start to ensure good positioning at the turnaround.
- Afternoon starts (W 14:30 / M 16:15). Water will be at its warmest of the day. Potential to be non wetsuit. Get an idea of water temp in afternoon prior to race.

Not in race brief: Confirmed race-day water temperature (published at the pre-race reading)

4.92 km • 3 × 1.6 km

Mixed indoor/outdoor — through the ExCeL venue hub each lap

Tactical Notes

- 3 anti-clockwise laps (1.76 + 1.76 + 1.34 km = 4.92 km) routed through the main ExCeL venue hub each lap.
- Flat and partly indoors course should make for fast conditions. Same venue that the T100 utilized should make for a loud and atmospheric environment.
- Three laps is atypical for sprint race. Lap counter will be at transition exit and make sure to note the finish chute is a left-hand turn on lap 3 (final 62 m)

Not in race brief: Elevation profile (course is flat — no published grade data). Can't build on Garmin Connect due to building inclosure.
