

QUIBERON RACE PREVIEW

Elite Analysis · June 2026

USA Triathlon High Performance

Race Week Schedule

Quiberon

June 18 – 21, 2026 • Espace Louison Bobet, Bd René Cassin, Quiberon (CEST, UTC+2)

Friday • June 19
Familiarization & Briefing

07:00 – 10:00	Pool training — Neptune Swimming Pool
09:00 – 09:30	Bike familiarization — 2 laps from transition (escorted)
10:30	Swim familiarization — beach
14:00 – 17:00	Pool training — Neptune
16:00 – 16:30	★ Mandatory Elite Athletes' briefing — Espace Louison Bobet
16:30 – 17:00	Elite team medical meeting — LOC Office
Post-briefing	Race package distribution
19:00	Run course measurement (coaches) — Finish Area, Bd René Cassin

Saturday • June 20
WTCS SPRINT RACE DAY

08:30 – 09:30	WTCS Men — Athletes' lounge check-in
09:00 – 09:45	WTCS Men — Transition + swim warm-up
09:50	WTCS Men — Athletes' introduction
10:00	★ WTCS MEN START
11:05	WTCS Men medals ceremony
10:30 – 11:30	WTCS Women — Athletes' lounge check-in
11:00 – 11:45	WTCS Women — Transition + swim warm-up
11:50	WTCS Women — Athletes' introduction
12:00	★ WTCS WOMEN START
13:10	WTCS Women medals ceremony
13:30 – 14:00	Mixed Relay — Team Declaration
20:00 – 20:30	Mixed Relay — Team Managers' Meeting (Elite Athletes Area)

Sunday • June 21
Mixed Relay Day

07:00 – 10:00	Pool training — Neptune
12:30 – 12:45	Mixed Relay — Final Team Declaration
15:30 – 16:30	Mixed Relay — Athletes' lounge check-in
16:00 – 16:45	Mixed Relay — Transition + swim warm-up
16:50	Mixed Relay — Athletes' introduction
17:00	★ MIXED RELAY START
18:30	Mixed Relay medals ceremony

Times local to Huatulco (CST, UTC-6). Schedule confirmed from World Triathlon race-info page; subject to organiser updates.

QUIBERON

Set on the southern tip of Brittany’s Quiberon peninsula, this will be the *first* edition of WTCS Quiberon. Expect a cool-water, likely wetsuit sprint race with a decently long beach start. The bike is largely flat but has multiple sections along the coast with potential for exposure to coastal winds. The run is also a simply out and back on asphalt that should lead to fast splits.

COURSE FEATURES

- Beach Start 750m Atlantic Swim. Cool water, likely wetsuit-legal.
- Flat Bike course. 4 laps of 5.5km will make the distance longer than normal. No real elevation but potential for exposed wind could come into play.
- Mostly asphalt out and back run. Simple 2 lap course.
- First race at this venue.

COURSE AT A GLANCE

Swim:	750 m – 1 lap
Bike:	22km – 4 laps x 5.5km
Run:	5km – 2 laps x 2.5km
Format:	Sprint Triathlon
Bike Laps:	4
Run Laps:	2

QUICK LINKS

Swim Course Profile

Quiberon

750 m • single lap

Open ocean — Atlantic / Bay of Quiberon

Distance

750 m

Layout

Atlantic Ocean

Start

Beach start

Water Temp

18.0 °C (7-yr avg)

Wetsuit

Wetsuit Likely

Lap Count

1

Tactical Notes

- Single 750 m loop. Historically cold water that will make for a wetsuit legal race
- Beach start running entry into the first 330m segment to the turning buoy
- Atlantic exposure brings chop and swell — sighting on bigger surface waves than typical WTCS venues
- Two left hands turns comprise simple box style course

Bike Course Profile

Quiberon

22 km • 4 × 5.5 km loops

Closed coastal/urban circuit — Boulevard René Cassin, Quiberon Peninsula

Elevation / Lap

Total Climb

Avg Grade

Max Climb Grade

Wind

Coastal Wind Likely (~20km)

Loops

4 × 5 km

Tactical Implications

- Generally flat profile with no significant climbs. Single loop with limited technical sections
- Coastal sections exposed to Atlantic wind.
- Two wheel stations: René Cassin Street (just out of T1) and Fort Neuf Street / Parking Nautique near Pointe Riberen
- Slightly longer course than standard, 22km total

Run Course Profile

Quiberon

5.0 km • 2 × 2.5 km

Asphalt out-and-back; small stabilized (gravel) section per lap

Distance

5.0 km

Lap Structure

2 × 2.5 km

Total Climb

—

Avg Grade

—

Max ▲ / ▼

—

Heat Risk

LOW

Tactical Notes

- Flat out-and-back asphalt course with one short stabilized-surface section per lap
- Aid stations at 0.2 km (just after T2) and 1.25 km. Pass each twice across the 2 laps
- Penalty Box located on the left, ~50 m before the Transition Area.
- Cool Atlantic conditions; June daily high ~23 °C, low ~13 °C means little heat-stress concern
- Lap structure: 2 × 2.5 km out-and-back

Race-Day Weather Outlook

Quiberon

2026-06-20 • Historical climatology — same calendar day, 7-year mean

Men start — 10:00		
Temperature	Apparent / Heat	Humidity
17.1 °C	16.2 °C	86%
Wind	UV peak	Heat Stress
18.4 km/h	—	LOW

Women start — 12:00		
Temperature	Apparent / Heat	Humidity
17.1 °C	16.8 °C	85%
Wind	UV peak	Heat Stress
17.3 km/h	—	LOW

Hydration & Cooling Cues

- Cool to mild outlook
- Notable wind (21 km/h) — drafting protection matters on exposed coastal bike sections; sight more frequently in chop

Data source: Open-Meteo. Forecast will replace climatology once race day is within 16 days. Historical Race Conditions slide shows what actually happened in prior years.

Travel & Arrival Load

Denver, CO → Quiberon race week

Core travel read

There are no direct Denver → Nantes flights. The cleanest athlete route is a one-stop itinerary through CDG, Dublin, Amsterdam, or another European hub into Nantes, then use the LOC/Nirvana scheduled shuttle to Quiberon. Many flight options include an overnight long-haul travel as a part of the leg. Minimize the 8h time zone shift by shifting daily schedule earlier before travel.

Primary route
DEN → NTE
1 stop likely

Flight time
~12h
Plus layover

Time zones
+8h

LOC Scheduled Transfer

Transfer Distance
~2 hours

Host Hotel / Official Accommodation Read

- Official accommodation is 3 hotels: Sofitel Quiberon Thalassa Sea & Spa, Mercure Quiberon Hotel, and ENV-I2N.
- Sofitel = premium recovery/wellness choice, oceanfront thalassotherapy setting.
- Mercure = practical team option: renovated rooms, close to beach/thalasso area, free Wi-Fi, bike storage in package.
- ENV-I2N = budget-oriented accommodation within a short ride/cycle to the event site.

Food / Grocery Options Near Hotel + Venue

- Best stock-up target: Super U Quiberon (116 Rue du Port de Pêche) for groceries, water, snacks, and room food.
- Quick basics: town-center bakeries, small markets, pharmacies, and convenience food around Quiberon centre / beach area.
- Restaurant read: seafood/crêperie-heavy resort town; plan simple athlete meals if avoiding rich sauces or unfamiliar seafood.
- Logistics note: peninsula access is constrained by one road/rail link. Potential for heavy traffic if coming from outside town center

Environmental Risk Profile

Quiberon

HEALTH & WATER QUALITY RISK FACTORS

- **Water Quality:** No Risk. Athlete guide sample values are safely inside WT reference limits: E.coli <15 / 46 / <15 per 100ml, Enterococci <15 at all points, pH 6.0–6.3, blue algae <0.5 µg/l.
- **Athlete Health / GI Risk:** No Risk. No Quiberon WTCS race-history. Primary health variable is cold-water / Atlantic exposure rather than documented GI illness.
- **Water Temperature:** Mid-June Atlantic range listed at 14.9–19.3°C; latest guide sample shows ~19.5°C. Likely wetsuit-legal.
- **Heat / Humidity:** Low heat risk. Forecast is mild with high around 22°C; humidity may be elevated, but temperature is less of a factor than the potential for winds along the coasts.

Who to Watch — Quiberon Race Week

ELITE MEN

Top 3 Ranked on Startlist

Rank	Athlete	Points
1	Miguel Hidalgo	6,703
3	Vasco Vilaca	6,164
